

# AEE EV Chargers

## The Latest Adaptive Charging Power Pool Technology

### ✓ Safe

Real-time BMS & charging state monitoring, stop charging in case of abnormality, always protect your battery

### ✓ Reliable

Redundancy design ensure high up-time, one module fault will not influence the normal operation

### ✓ Compatible

All EV in the market are compatible to charge thanks to 150-1000V wide output voltage range

### ✓ Flexible

Plug&Charge, First come First serve, Average charging and Time-varient multiple charging strategies, etc. all at your service

### ✓ Future-proof

No upgrade required, ACPP can withstand future evolving EV charging demand
